

# Endoscopic Ear Surgery Workshop

3<sup>rd</sup> East African Endoscopic Ear Surgery Course

November 23-24, 2017

## COURSE AGENDA

- Current indications & future perspectives
- Endoscopic Cartilage Button Tympanoplasty
- Endoscopic Anatomy of the Middle Ear and Temporal Bone
- Endoscopic Ossiculoplasty
- Endoscopic Access to Protympanum and Proximal ET
- Endoscopic approach to Cholesteatoma
- Endoscopic Cochlear implantation
- Endoscopic Onlay and Underlay Myringoplasty
- Hands-on cadaver dissection
- Live surgery

## COURSE VENUE

Nairobi Surgical Skill Center (NSSC)  
University of Nairobi, Kenya  
Web: [www.nssc.co.ke](http://www.nssc.co.ke)

## WHAT IS UNIQUE ABOUT THIS WORKSHOP

- The dissection will be held on a step-by-step mode with small groups of two participants per cadaveric head.
- The course strongly relies on hands-on demonstrations using whole-head cadaveric specimens.
- Live surgery, lectures and demonstrations cover the theoretical background of the subjects taught.
- In collaboration with IWGEES - International Working Group on Endoscopic Ear Surgery
- CPD points
